Social Services

Regional Social Services Office Steinfurt

Any person legally residing in the Grand Duchy of Luxembourg is, in principle, entitled to social assistance in order to lead a life of dignity.

Social assistance ensures that people in need and their families have access to goods and services adapted to their particular situation in order to help them achieve or maintain their independence.

The Social Welfare Office acts in a subsidiary manner and can supplement the social measures and financial benefits provided for in other laws and regulations, which the beneficiary must exhaust.

The Social Welfare Office is palliative, curative or preventive and focuses on short-, medium- or long-term social accompaniment. If necessary, this accompaniment is combined with material assistance in the form of benefits in kind or cash.

To apply for social assistance, the person in need must contact the social welfare office in the area of the municipality in which he or she resides.

Centre d'Initiative et de Gestion Local (CIGL) in Steinfort

The Centre d'Initiative et de Gestion Local (CIGL) in Steinfort is an association founded in 2000 as a result of national and municipal political will to create an employment-friendly environment.

The association has three major goals. The first is to promote job creation and reintegration into the labour market. The second goal is to actively participate in local development. And the last is to support social inclusion.

The association offers various services aimed at fellow citizens over 60 years of age:

“Kniwwelkëscht”

This service offers fellow citizens help at home with everyday tasks, e.g. gardening, masonry work, small renovation jobs, etc.

Shopping service

Through this service, fellow citizens have the opportunity to place an order for essential goods and medicines by telephone or e-mail. In the case of medicines only available on prescription, it is important to give advance notice.

Health

Intermunicipal Hospital Steinfort

The Intermunicipal Hospital Steinfort (Hôpital Intercommunal Steinfort - HIS) is an institution with the status of an intermunicipal syndicate combining various departments:

The departments of the HIS

Day Centre Psycho-geriatric Clinic (CPG)

The specialised Day Centre accepts older people over 60 years of age who need help (or care) in daily life and wish to continue living at home. Based on their abilities, their wishes and their life history, the elderly people determine their care project together with the interdisciplinary team.

To stimulate the seniors throughout the day and to arouse their interest, various activities, individually or in groups, are offered, such as sitting dance, reminiscence workshop, cognitive workshop, cooking,

handicrafts, crochet, knitting, conversation group, “sports debate”, walk, outing, etc. The Day Centre is a sociable place where all those present enjoy coming together and sharing memories, experiences, and feelings.

In addition, various local partnerships have been developed with the preschool education in Steinfort for an intergenerational project, with the CIGL and the primary school in Steinfort for the meetings in the solidarity garden; with the association “Aktikulti” in Steinfort, etc.

Day clinic

The day clinic offers outpatient, interdisciplinary treatment for patients over 65 years of age. The facility offers preventive, diagnostic and curative measures to improve the patient's quality of life and keep them in their home environment.

Care home

The nursing home accepts persons in need of care with or without cognitive impairments. In comfortable living quarters, it offers professional and interdisciplinary care as well as modern and adapted equipment.

The person's care is based on an individual assistance and care concept, which is worked out on the basis of each individual's needs, abilities, and life history.

Geriatric department for functional rehabilitation

The geriatric rehabilitation department provides rehabilitation services for patients over 65 who have suffered an injury that affects their functional independence. Geriatric rehabilitation at the Steinfort Rehabilitation Centre aims

to maintain and regain the person's autonomy through personalised rehabilitation programmes that are reviewed weekly by an interdisciplinary team.

HIS services for the public

Medical and therapeutic centre

The medical and therapeutic centre currently includes a department for physiotherapy and osteopathy as well as a department for nutritional counselling and speech therapy. The whole is framed by a general medical practice. Appointments can be made either directly with the doctors and therapists or via the hospital secretariat.

Assistance and care services

Care services are professional services that provide a range of services in the patient's home. Home care services include services at the level:

- of assistance and care in the areas of basic life activities (help with personal hygiene, discharge, nutrition, clothing, mobility),
- of other activities such as specialised individual or group activities, individual care at home, group care in a day centre, night care, training for family carers, training related to the use of technical aids or activities to help with household management.

Home nursing includes measures taken by nurses, e.g. injections, blood sampling, infusions, wound treatment, bandages, plasters, insertion of probes, blood

pressure control, administration of medication or blood sugar control.
